Dear Ben

**Ref: New Forest Visual Impact Provision “Hale Purlieu”: Feedback received by Hale Parish Council**

As discussed at the recent drop-in meetings, Hale Parish Council has been encouraging local residents to put their concerns about the project in writing. Please find attached:-

- anonymised feedback received document, arranged in loose ‘groups’ of issue type and
- overview tracking schedule of feedback received and issues identified

Hale Parish Council have not attempted to respond to any of the questions or objections. We view our role in the period prior to submission of any planning permission to be an active member of the stakeholder advisory group and in particular to act as an effective conduit of information and feedback between residents and the National Grid project team. We hope that you will find this feedback insightful and useful.

For ease of tracking and to avoid duplicating work, this document includes all feedback received up to and including Tuesday 28<sup>th</sup> August. It is our proposal to forward feedback received on a regular monthly basis, using the cut off date for the Parish Council meeting agenda.

The Parish Council is particularly concerned that people receive accurate information to assess the impact of the project and decide whether they might support it or not. Please do send us any information you can to answer any of these questions or (if applicable) to correct any misinterpretation of information or general misunderstandings. We will ensure that the individuals involved receive this information and – providing there are no confidentiality issues identified - will publish information received on our website so it is available to all residents.

If you have any questions or any of the above needs further clarification or discussion, please do not hesitate to come back to us.

We would be grateful if you could acknowledge safe receipt of this letter and let us know when we might reasonably expect responses.

Yours sincerely

*K. Cleary*
